Achievement Reports

CHAPTER 1

ORGANIZATIONAL TRANSFORMATION AND INSTITUTIONAL DEVELOPMENT

1.1 Presentation of the Organisational Structure (Approved Organogram)

NOTE: Reference is made to Annexure A, pg 33 which provides the detailed organogram for Senqu Municipality for 2010/2011.

Analysis and comparison between the currently approved organogram and current staff complement would indicate that:

- A total of 309 positions for the organization were approved for 2010/2011.
- The total number of approved but vacant positions is 16 as at 30 June 2011.
- During 2010/2011, the following s57 managers were in possession of employment contracts and performance agreements:
 - Municipal Manager
 - Corporate and Support Services Director
 - Chief Financial Officer
 - Technical Services Director
 - Community and Social Services Director
 - Integrated Planning, Monitoring and Evaluation Director

It must be noted that a new Directorate was formed during this period and this is termed the Integrated Planning, Monitoring and Evaluation Directorate. Mr Danso Ayemang was appointed Director of the IPME Directorate on the 1 August 2010. Aside from this appointment it must be noted that all of the s57 Managers positions have remained constant for this period. As per legislative requirements all performance agreements and employment contracts for these posts were submitted to the Department of Housing, Local Government and Traditional Affairs within the prescribed timeframes.

The table below details the approved, filled and vacant funded posts within Senqu Municipality:

Approved and Funded Posts in the entire Institution	Number of Employment Contracts and Performance Agreements	Filled Posts	Total Number of Vacant funded posts in the Entire Institution	Total Number of Vacant unfunded posts in the Entire Institution
309	6 (s57)	200	16	93

Internship Programmes

A very successful internship programme was held during 2010/2011 and was motivated in an effort to reduce the negative impact that skills shortages have had on recruitment and the placement of suitably qualified persons. The aim of this programme is to empower and create capacity to create a much needed future employable staff.

1.5 Implementation of the Performance Management System (PMS)

The Performance Management Framework was developed in terms of the Municipal Planning and Performance Management Regulations of 2001, where it was required that municipalities develop Performance Management Policies and Systems that were "commensurate with their resources and best suited to their circumstances".

While taking this into consideration, Senqu Municipality developed and adopted a Performance Management System that suited its circumstances and was required to facilitate the implementation of the Integrated Development Plan (IDP) objectives.

The Performance Management Framework that resulted was based on the following pieces of legislation:

- The Local Government Municipal Systems Act, Act No. 32 of 2000;
- The Municipal Planning and Performance Regulations (2001) and (2006); and
- The Municipal Finance Management Act, Act No. 56 of 2003.

Within this framework an integrated approach to Performance Management is provided. Accordingly the following process is followed to ensure effective performance monitoring and management at both an employee and an institutional level.

- The IDP provides a 5-year Strategic Plan for the municipality;
- Annually the IDP is reviewed and an annual set of IDP objectives are developed;
- These objectives are translated into departmental objectives which by necessity and design are linked to the organisations annually approved Budget, so as to ensure that these objectives can be practically achieved (without financial resource constraints being an issue – i.e. budgeted for);
- Service Delivery and Budget Implementation Plans (SDBIP's) are developed from Departmental Strategic Objectives that were in turn developed and linked to Departmental Budgets;
- The Service Delivery and Budget Implementation Plan (SDBIP) is further broken down into individual and team performance objectives, in order to ensure that all individuals and teams remain working towards achieving common performance targets.

Based on this process flow and at a formal level, it must be noted that individual performance is only assessed at the level of s57 managers. At an **informal level** it is clear that performance aligned to these targets will be required from all staff and this in turn will at this stage be evaluated informally (externally from the PMS), in terms of day-to-day management functioning.

During 2010/2011 it must be noted that PMS at **an individual level** has not been successfully applied. This may be attributed to the fact that strict adherence to every aspect of the PMS cycle is not being maintained. Clearly it must be acknowledged that greater effort is required to be made to ensure that all aspects of coaching and mentoring are applied.

The Integrated Performance Management System requires integration between both the “Employee” and “Institutional” aspects of performance management and performance assessment. These are effectively two sides of the same coin and both aspects work together in order to ensure that the institutional strategic objectives are met. These two aspects will be examined further as follows:

Employee Performance Management

In terms of the “Employee” aspect of the PMS, the PMS cycle involves the following four (4) steps:

Period	Process	Month of Reporting
1 July – September	Coaching and Review	October
2 October – December	Assessment	January
3 January – March	Coaching and Review	April
4 April – June	Final Assessment	July

Prior to the beginning of the performance cycle (which runs annually from 1 July – 30 June), both employee and employer work together to develop a mutually acceptable individual employee scorecard that is aligned to: the departmental scorecard, the SDBIP, the budget and ultimately the IDP.

During the first and third quarters, coaching and review (of actual performance as compared with the required performance) occurs. During these discussions between the manager and the subordinate, performance shortfalls are identified and action plans are developed to facilitate the required performance improvement.

During the first and final review all actual performance is rated against the required performance targets. In terms of the final assessment, s57 managers may qualify for a performance bonus in terms of the PMS Framework, providing the qualifying criteria are met. An Evaluation Panel to conduct the final review is constituted as follows:

EVALUATION PANEL OF THE MUNICIPAL MANAGER		EVALUATION PANEL OF MANAGERS ACCOUNTABLE TO THE MUNICIPAL MANAGER
Mayor (Senqu Municipality)	→	Municipal Manager (Senqu Municipality)
Chairperson of the audit committee or member of the Audit Committee	→	Chairperson of the audit committee or member of the Audit Committee
Executive Committee member	→	Executive Committee member (portfolio head of the respective Department - nominated by Mayor)
Executive Committee member	→	Executive Committee member
Mayor from another municipality	→	MM from another municipality
Ward committee member nominated by Mayor	→	PMS Facilitator
PMS Facilitator		

TABLE: Evaluation Panels for Final Reviews (MM and s57 managers')

Rating and assessing individual employee performance

These Performance Evaluation Panels', review each managers' performance and rate this according to the rating calculator below. Each member of the assessment panel scores each indicator individually and a PMS facilitator /

Coordinator collates all the scores and presents a consolidated report which will produce a final rating that is required to be ratified by Council before being accepted.

Based on the final score (out of 200 points), a bonus award may be applicable based on a sliding scale of 5-14% as provided by the Regulations or up to 20% in "special cases" as already detailed for s57 employees. This bonus (if applicable) is required to be approved by Council and any bonus can only be awarded after the Annual Report is approved by Council and has in this manner been verified and approved by the Auditor General's office. It is a misconception, that if an organization receives a qualified audit report that no bonuses are allowed to be paid. It is noted that the assessment of performance for every s57 Manager will be specifically based on his/her KPA's and CMC's. Based on these results (not the organization), the performance bonus will either be found to be applicable or not.

All performance claims are required to be validated and as such each manager is required to present a detailed Portfolio of Evidence containing all supporting documentation/material that validates all actual claims of performance. In the absence of evidence no score could be awarded and it must be noted that all scores made by the panelist would ultimately be validated by an Audit Committee that would sit expressly for this purpose.

In order to rate performance achieved, the following **rating calculator** is used:

Level	Terminology	Description
5	Outstanding performance	Performance far exceeds the standard expected of an employee at this level. The appraisal indicates that the employee has achieved above the fully effective results against all performance criteria and indicators as specified in the PA and Performance Plan and maintained this in all areas of responsibility throughout the year.
4	Performance significantly above expectations	Performance is significantly higher than the standard expected in the job. The appraisal indicates that the employee has achieved above fully effective results against more than half of the performance criteria and indicators and fully achieved all others throughout the year.
3	Fully effective	Performance fully meets the standards expected in all areas of the job. The appraisal indicates that the employee has fully achieved effective results against all significant performance criteria and indicators as specified in the PA and Performance Plan.
2	Performance not fully effective	Performance is below the standard required for the job in key areas. Performance meets some of the standards expected for the job. The review / assessment indicates that the employee has achieved below fully effective results against more than half the key performance criteria and indicators as specified in the PA and Performance Plan.
1	Unacceptable performance	Performance does not meet the standard expected for the job. The review / assessment indicates that the employee has achieved below fully effective results against almost all of the performance criteria and indicators as specified in the PA and Performance Plan. The employee has failed to demonstrate the commitment or ability to bring performance up to the level expected in the job despite management efforts to encourage improvement.

Using the rating calculator and only taking into account the 4th quarter final rating, performance bonuses will be allocated to qualifying s57 Managers. The bonuses that may be awarded (as detailed below) **are not applicable** to those managers that are considered to be "Special Cases" in terms of the Municipal Performance Regulations. Bonuses are paid out as a percentage of the all –inclusive remuneration package as follows:

Performance Score	Performance Bonus
150% +	10% – 14%
130% to 149%	5% – 9%

Accordingly:

- A score of 130-133.99 receives a bonus of 5%
- A score of 134-137.99 for example would receive a bonus of 6% as per the sliding scale above and detailed in the table below; and
- Any score of 166 and above receives a fully bonus of 14% of the all-inclusive remuneration package.

TABLE: Sliding Bonus Scale

Performance Score	% Bonus
130	5
134	6
138	7
142	8
146	9
150	10
154	11
158	12
162	13
166+	14

Special Cases

S57's managers that entered into contracts prior to implementation of the Performance Management Regulations are treated as "special cases" in terms of section 39(2) of the Regulations. In this regard the special case incidents (as in the case of Mr Venter; Mr Crozier and Mr Yawa) payment of performance bonuses may occur up to a maximum of 20% of their total remuneration package. In terms of their contract arrangement this remains currently applicable.

In determining the performance bonus, it must be noted that the relevant percentages will be required to be based on the overall rating calculated by using the applicable assessment rating calculator (as already detailed above). Accordingly for special cases the following bonus structure applies:

TABLE: Bonuses for Special Cases

RATING	ASSESSMENT SCORE	PERFORMANCE REWARD
5	81 - 100	Total Package x 20% (full bonus)
4	66 – 80	Total Package x 20% x percentage (%) obtained in formal evaluation
3	51 – 65	Total Package x 20% x percentage (%) obtained in formal evaluation
2	36 – 50	Total Package x 20% x percentage (%) obtained in formal evaluation
1	Less than 35	No Reward

Management of Poor Performance

Poor or unacceptable performance is required to be managed according to standard practice and in terms of the organizations Grievance and Disciplinary Code. In the event that these attempts prove to be unsuccessful, the employer should take steps to terminate the contract on grounds of misconduct or incapacity. In that case, there should be adherence to the provisions of the Labour Relations Act (Schedule 8, Code of Good Practice).

Final Reporting: Employee Performance

Within 14 days of concluding the assessment of the MM's performance, the results thereof will be submitted to the MEC for Eastern Cape Local Government and the national Minister for Local Government.

NOTE: No final assessment will be conducted until the Annual Report is finally approved and therefore the data contained within the Annual Report will have been audited --- thereby verifying statistics and performance claims on which the assessments will be based.

Annual Performance Reporting and Review (Institutional Performance)

Annually it is required that a comprehensive report on the performance of the Municipality is compiled as per the prescriptions of Chapter 12 of the Municipal Finance Management Act, Act no. 56 of 2003. In terms of these

prescriptions the following table details all the Performance Reporting and responsibilities required at the institutional level:

REPORT	FREQUENCY	SUBMITTED FOR CONSIDERATION AND/OR REVIEW	REMARKS
1. SDBIPs	Quarterly	Exco	See MFMA Circular 13 of National Treasury for further information
2. Monthly budget statements	Monthly	Mayor (in consultation with Exco)	See Sections 71 and 54 of the MFMA
3. Organizational Scorecard	Quarterly	Exco	PMS framework
4. SDBIP mid-year budget and performance assessment	Annually during January of each year	Mayor (in consultation with Exco)	See Sections 71 and 54 of the MFMA
5. Performance Report	Annually	Council	See Section 46 of the Municipal Systems Act as amended. Said report to form part of the annual report
6. Annual Report	Annually	Council	See Chapter 12 of the MFMA

The review in January coincides with the mid-year performance assessment as per s72 of the Municipal Finance Management Act, Act no. 56 of 2003. This section requires that the Accounting Officer must by 25 January of each year, assess the performance of the municipality and report to Council on the service delivery performance during the first half of each financial year and the service delivery targets and indicators as set out in the SDBIP.

The MFMA requires that an internal audit function is utilized in order to audit and verify the accurateness and correctness of the performance management function and reporting requirements (i.e. assessment of the functionality of the performance management system).

The Audit Committee was established in terms of the MFMA and the Municipal Planning and Performance Management Regulations and is comprised of a minimum of 3 members, the majority of which are not employees of Council, and must exclude Councillors. Additionally the Chairperson may not be an employee of Senqu Municipality.

Internal Audit (Performance Management)

It is required by the MFMA that the accurateness and correctness of the performance management function and the performance reporting be audited and verified. The Audit Committee was duly established to:

- Review the quarterly reports submitted to the internal audit
- Review the PMS System of the Municipality and make recommendations to Council; and
- To submit the Audit Report to the Municipal Council at least twice during the financial year.

The table below highlights the key roles and responsibilities of all Performance Management System role-players.

Application of Performance Management during 2010/2011

Scorecards for 2010/2011 were noticeably improved and were aligned to the National Indicators and IDP as per requirements. Notwithstanding, the improvements it is acknowledged that the performance targets could have been more specifically worded in many instances. Setting of performance targets and controls is an issue that needs to be addressed formally and efforts will be made to improve within this area.

It is recognized in future when planning and compiling these scorecards every effort must be made to ensure that targets are written in an objective manner (managers are required to provide input in establishing these targets /milestones), and according to the **SMART** principle. In this regard targets must be written in a manner that is:

Simple to understand;
 Measurable (able to be measured);
 Achievable;
 Realistic; and
 Time bound

The following Key Performance Areas (KPA's) were reflected within each s57 Managers scorecard as follows

- Basic Service Delivery

- Good Governance and Public Participation
- Municipal Institutional Development and Transformation
- Municipal Financial Viability and Management
- Local Economic Development

Key performance indicators were detailed within each KPA.

Within each scorecard, these KPA's account for 80% of the value of the Performance Targets. The remaining 20% is made up of Core Management Competencies (CMC's) Three (3) compulsory CMC's are required to be evaluated. These are detailed as:

1. Financial Management
2. People Management and Empowerment
3. Client Orientation and Customer Focus

Two elective CMC's /CCR's are required and must be chosen in accordance with the job functions.

Note: The IDP (Integrated Development Plan) has been reviewed but it was identified that there were many discrepancies between the information contained within the IDP's for 2009/2010 and the 2010/2011 financial years from which the SDBIP's (Service Delivery Budget and Implementation Plans and performance scorecards) had been developed. The development and population (development of performance targets and alignment to IDP/Budget) and SDBIP reporting still remains a challenge.

During 2010/2011 the performance levels of the s57 Managers were evaluated in terms of the **final review only**. The PMS was therefore not fully applied. It is critical that all 4 phases of the performance cycle are conducted and this is an issue that has to be addressed if performance management is to be taken seriously and applied effectively. This has been a criticism in the past few years and it is clearly an issue that is urgently required to be addressed moving forward.

Quarterly performance and SDBIP reporting was conducted however in the strictest sense this was not conducted according to standard or according to the PMS Framework. Moving forward it will be required that all cycles of Employee Performance are strictly applied and incorporate coaching and review. It is noted that the final review of the s57 managers will only occur (for the year 2010/2011) after the approval of the Annual Report as it is only at this time that the information has been audited and verified.

In respect of performance reporting at the institutional level, it is unfortunate that the S72 report was not submitted on the required deadline. While this was not ideal, it perhaps highlights the need for all managers to treat performance management as an area of priority and to recognize that the responsibility of reporting lies with each and every manager. In other respects performance reporting (institutional level) is occurring in the manner required.

Auditing of Performance

Progress within this field has not been without challenge. An Integrated Planning & Compliance Manager has been appointed, an Internal Auditor is appointed and the internal audit Unit is functional. An Internal Audit Plan was developed and approved by the Audit Committee. The role and function of this unit is to facilitate compliance in the manner in which reporting is conducted and the manner in which policies and procedures are conducted. Efforts are made to evaluate performance and functioning within departments and to advise them of important dates and on the type of reporting / information required from departments. This unit focuses on the facilitation of compliance issues.

Notwithstanding these appointments it is acknowledged that improvement overall is required and this is to a large extent necessitated by the need for management to treat these issues as a priority at all times rather than merely an issue of compliance. This will ensure that greater success is achieved within this area.
